

Europe Unlimited presents the award winners of the Green City Investment Forum 2014

Brussels, 19th of November 2014 - The **Green City Investment Forum** took place on **November 18th in Marne-la-Vallée, Paris**. The event was organized by Europe Unlimited and supported by Advancity in the frame of the second edition of the [Greencity event](#).

The Green City Investment Forum united 26 European early stage innovative companies, selected from a pool of around 60 companies, active in Eco-Technology, Eco-Mobility, Eco-Construction and Eco-City seeking investment opportunities and international exposure. The selected companies pitched their innovation, developments and needs in front of an international Jury consisting of around 30 venture capitalists, corporate investors, business angels, and other industry experts.

The award winners qualified to continue along the European Venture contest; a pan-European contest of venture events that gathers the best of each edition to join the European Venture Summit, Europe's largest venture capital match-making event, taking place on 8th and 9th of December 2014 in Düsseldorf, Germany.

Below are the names of the 7 Award Winners of the Green City Investment Forum 2014:

- **Advanced Materials** - Italy
Provider of innovative building material products
- **Elaphe Propulsion Technologies ltd** - Slovenia
Innovative in-wheel motor technology for electric vehicles
- **MobyPark** - France
Smart parking solution for overcrowded cities
- **ParkTAG GmbH** -Germany
We turn smartphones into parking sensors
- **PumpTire AG** - Switzerland
Self-inflating Bicycle Inner Tubes & Tires
- **Save Innovations** - France
Design, manufacturing and marketing of stand-alone power supply solutions for monitoring equipment of water supply networks out of innovative pico-turbine producing electricity from low-speed water flows
- **Skeleton Technologies** - Estonia
Skeleton Technologies has developed a disruptive 50-80% cheaper ultra capacitor product for a rapidly growing market. It will solve crucial energy storage problems in transportation, renewable energy, power quality and the industrial sector.

Note to the editors

About the European Venture Contest

The European Venture Contest finds, evaluates and awards the most promising entrepreneurs in the high technology sector by providing access to top-level international partners, advisors and financiers. The Contest reaches this year its 9th edition, and in the past years gathered over 800 companies and 600 venture capitalist and corporate investors from all over Europe. The top 100 companies awarded at the qualifier events will present in December at the European Venture Summit in front of an audience of 150 top European investors.
